Labs 

Agenda Innovation World Cup Series | DEVELOPER WORKSHOP

Build your own IoT device with MediaTek Labs.

9:00 a.m. **Welcome by MediaTek Labs and CSEM**

9:10 a.m. **DEVELOPER WORKSHOP – Build your own IoT device with MediaTek Labs.**

In this workshop Philip Handschin, technical consultant, will teach you all about MediaTek Labs LinkIt™ ONE, the development platform that enables developers to create Wearables and IoT proofs-of-concept with the simplicity of the Arduino IDE and Seeed Studio Grove peripherals. Attendees will each receive a MediaTek LinkIt ONE board (all hardware provided – just bring your laptop) to work on during the session where you will build your own IoT project.

By the end of this workshop, attendees will successfully read out sensor data from connected sensors and upload the collected data via GPRS to a cloud platform. You will also be able to keep and take home your MediaTek LinkIt ONE board.

12:00 p.m. **Lunch and Get-together**

1:00 p.m. **Start of Innovation World Cup Conference NEUCHÂTEL**

(only 100 m to the conference location at Microcity)

To sign up for a membership of MediaTek Labs, please [click here](#).
